

Driving K-12 Efficiencies District-Wide

School districts help drive K-12 operations, cross-campus collaboration and student success. Therefore, it is critical that districts modernize their information management by automating and digitizing processes, streamlining workflows and securely preserving records through their life cycles.

Leading school districts partner with Laserfiche to achieve efficiencies and reduce operational costs. **"Laserfiche is one system with endless capabilities,"** says Tammy Yarbrough, records management officer with New Caney Independent School District in Texas.

To find out how your school district can reduce manual, paper-based tasks, automate processes with electronic forms and workflows, and securely manage records, visit [Laserfiche.com/K12efficiency](https://laserfiche.com/K12efficiency)

Human Resources

Bryan Independent School District in Texas
reduced annual costs associated with document management
by over \$350,000.

Student Registration
